# KEYSTONE

ON DELIVERY • MOBILE DEVICE MANAGEMENT

GivenHansco has partnered with 42Gears to bring Mobile Device Management (MDM) to our existing customers using Keystone On-Delivery tablets. This software will help our customers save valuable time performing application updates as well as streamline the entire Android experience for ready mix producers.

BENEFITS OF MOBILE DEVICE MANAGEMENT:

- GivenHansco support staff will assist in set-up, deployment, and management of SureMDM.

- Additional user accounts can be created for members of your team for additional set-up and support.

- Tablet lockdown screens can be customized to specific apps that are needed per tablet per fleet.

- Tablets perform better and load more quickly with less bog down.

POWERED BY:

42GEARS

SureMDM empowers users with the tools they need to succeed, including:

DRIVER SAFETY MODE
Set screens to go blank when drivers exceed certain speed thresholds.

DEVICE LOCKDOWN
Instantly access Keystone On-Delivery and block access to other apps.

EFFORTLESS DEVICE UPDATES
Remotely push apps and app updates to devices in-the-field to keep them secure, with no user intervention required.

REMOTE CONTROL
Admins can use 42Gears' Remote Control feature to troubleshoot devices anywhere, ensuring users have minimal malfunctions or downtime.

LOCATION TRACKING
Track and locate devices remotely and create a breadcrumb trail of devices' whereabouts.
